

ENVIRONMENTAL SUSTAINABILITY DASHBOARD

The Environmental Sustainability Dashboard is Interzero's solution for companies of all sizes interested in monitoring sustainability-related data.

Why Interzero?

Thanks to 30 years of industrial and consulting experience, Interzero is the leading partner for clients in the circular economy, in every industry.

Why is this right solution?

Environmental Sustainability Dashboard plays a crucial role in helping companies review their environmental performance and take informed decisions.

Interzero Consulting

By analyzing key environmental metrics, Interzero can identify inefficiencies, improve the company's sustainability efforts, set goals, track progress and improve the overall environmental strategy.

COMING SOON!

Interzero will also cover the "S" and "G" components.

What are the benefits?

CALCULATION METHODOLOGY*

based on International Standards: GRI - GHG - CED.
*Certification ongoing

Our dashboard will be fully compatible with the European Commission's CSRD and the implementation ESRD, providing output that are fully in line with them.
