

Check for Recycling

Ensure PPWR conformity

Simple, digital, legally compliant

The PPWR requirements for declarations of conformity are imminent. **The PPWR will soon make it mandatory to provide proof of the recyclability of your packaging.** With our newly developed online tool 'Check for Recycling', we guide you through the process of ensuring your packaging complies with regulations – simply, easily and in accordance with the law.

Your challenge, our solution

Packaging analysis made easy

Once you have entered all relevant packaging information about the material structure, your packaging will be analyzed.

Testing & evaluation - including ABC grading

Receive your recyclability results, including ABC grading and a recyclability breakdown of your packaging, in accordance with the German minimum standard of the ZSVR.

Conformity (DoC) & certification

Easy creation and generation of the declaration of conformity for each packaging or sales unit.

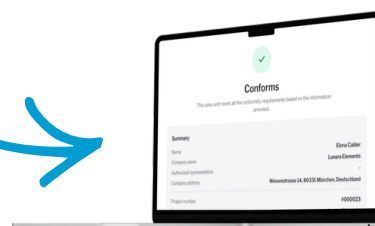

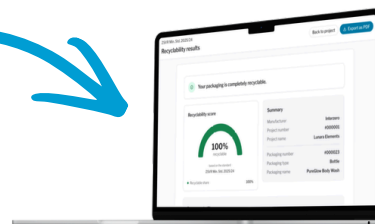

Portfolio management made simple

Portfolio management without the complexity – Create custom folders and maintain an overview!

Proof of recyclability & PPWR compliance
